

FLIPOLO The frantic flip game

Game by: Gali Shimoni & Zvi Shalem.
2-4 players, ages 5+, 15 min.

Contents

- 4 sets of 12 character tiles, each set has a different color.
- 6 double sided game boards.

Aim of the game

Match your character tiles to the board as fast as you can. The player with the least points at the end of 5 rounds - wins!

Game setup

Each player receives 12 tiles in a different colored frame and 1 random board. He places them beside him.

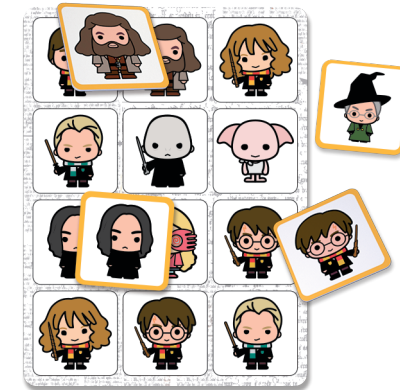

Before starting the game, players should decide whether to place their tiles on their boards (easy version), beside their boards (more difficult), or play with 1 board in the center (the most challenging option).

How to play

On the count of 3 all the players simultaneously flip their game board to the other side and try to arrange all their tiles according to the board as fast as they can. Place each character in its designated spot.

The tiles should be placed on the board or next to it, depending on what you agreed on at the beginning of the game. Don't forget! The tiles are double sided!

At the end of each round, the player who finishes first receives 1 point. The second player to finish receives 2 points and so on. The less points you accumulate- the better! It's recommended to write down the score of each round. After 5 rounds the game ends. The winner is the player with the least points.

Easier version

(for 3-4 year old players)

A game for a single player. In this case we recommend grownups to encourage the player to pay attention to the character on the other side of the tiles. In many cases the player will be left with only one card not matching the last vacant spot on the board. In this case he must try to maneuver the tiles already placed and replace it with a different tile.
